

# International Journal of Epidemiology

Official Journal of the International Epidemiological Association

## Contents

Editor's Choice	811	Mensuration, Mendel, and a 19th century public health justification for US imperialism G Davey Smith
Editorial	814	The women's health initiative—curse or blessing? KB Michels
Review	817	Health in Cuba RS Cooper, JF Kennelly and P Orduñez-Garcia
	825	Commentary: Daring to learn from a good example and break the 'Cuba taboo' JM Spiegel
Photoessay	827	Legacy: inside the Chernobyl exclusion zone J Darwell
Cochrane Column	832	Vitamin A supplementation for reducing the risk of mother-to-child transmission of HIV infection: Cochrane systematic review CS Wiysonge, MS Shey, J Sterne and P Brocklehurst
	833	Commentary: Vitamin A supplementation for reducing the risk of mother-to-child transmission of HIV infection JS Read
	834	Commentary: Vitamin A supplementation for reducing the risk of mother-to-child transmission of HIV infection MA Dhansay
	835	Response to Read and Dhansay CS Wiysonge
Cohort Profiles	836	Cohort Profile: 1970 British Birth Cohort (BCS70) J Elliott and P Shepherd
	844	Cohort Profile: The Guangzhou Biobank Cohort Study, a Guangzhou–Hong Kong–Birmingham collaboration C Jiang, GN Thomas, TH Lam, CM Schooling, W Zhang, X Lao, P Adab, B Liu, GM Leung and KK Cheng
Special Theme: Intergenerational Influences on Health	853	Prenatal exposure to 1,1-dichloro-2,2-bis ( <i>p</i> -chlorophenyl)ethylene ( <i>p,p'</i> -DDE) in relation to child growth N Ribas-Fitó, BC Gladen, JW Brock, MA Klebanoff and MP Longnecker
	858	Commentary: Halogenated organic compounds and child's growth: a growing public health problem W Karmaus
	862	Menstrual and reproductive characteristics of women whose mothers were exposed <i>in utero</i> to diethylstilbestrol (DES) L Titus-Ernstoff, R Troisi, EE Hatch, LA Wise, J Palmer, M Hyer, R Kaufman, E Adam, W Strohsnitter, K Noller, AL Herbst, J Gibson-Chambers, P Hartge and RN Hoover

	868	Commentary: Prenatal exposure to diethylstilbestrol (DES): a continuing story JA McLachlan
	871	The association between intrauterine growth restriction in the full-term infant and high blood pressure at age 7 years: results from the Collaborative Perinatal Project AH Hemachandra, MA Klebanoff, AK Duggan, JB Hardy and SL Furth
	877	Commentary: Early life determinants of blood pressure in childhood—where do we go from here? PH Whincup and CG Owen
	880	Birth weight and coronary heart disease in a cohort born 1857–1900 in Melbourne, Australia R Morley, J McCalman and JB Carlin
	886	Commentary: Birthweight and coronary heart disease in a historical cohort DJP Barker
Ethnicity and Health	888	A systematic review of empirical research on self-reported racism and health Y Paradies
	902	Diversion: Strange fruit A Meeropol (pseudonym: Lewis Allan)
	903	Trends and disparities in socioeconomic and behavioural characteristics, life expectancy, and cause-specific mortality of native-born and foreign-born populations in the United States, 1979–2003 GK Singh and RA Hiatt
	919	Commentary: Of salmon and time travellers—musing on the mystery of migrant mortality O Razum
Mendelian Randomization	922	Insight into the nature of the CRP–coronary event association using Mendelian randomization JP Casas, T Shah, J Cooper, E Hawe, AD McMahon, D Gaffney, CJ Packard, DS O'Reilly, I Juhan-Vague, JS Yudkin, E Tremoli, M Margaglione, G Di Minno, A Hamsten, T Kooistra, JW Stephens, SJ Hurel, S Livingstone, HM Colhoun, GJ Miller, LE Bautista, T Meade, N Sattar, SE Humphries and AD Hingorani
	932	Commentary: Genes as instruments for evaluation of markers and causes RJ Glynn
	935	Fibrinogen and coronary heart disease: test of causality by 'Mendelian randomization' B Keavney, J Danesh, S Parish, A Palmer, S Clark, L Youngman, M Delépine, M Lathrop, R Peto and R Collins for The International Studies of Infarct Survival (ISIS) Collaborators
	944	Commentary: Fibrinogen and coronary heart disease—test of causality by 'Mendelian' randomization by Keavney et al. TW Meade, SE Humphries and BL De Stavola
	948	Stillbirth and slow metabolizers of caffeine: comparison by genotypes BH Bech, H Autrup, EA Nohr, TB Henriksen and J Olsen
	954	The association between atopy and factors influencing folate metabolism: is low folate status causally related to the development of atopy? LLN Husemoen, U Toft, M Fenger, T Jørgensen, N Johansen and A Linneberg
Social Epidemiology	962	Social disadvantages in childhood and risk of all-cause death and cardiovascular disease in later life: a comparison of historical and retrospective childhood information L Kauhanen, H-M Lakka, JW Lynch and J Kauhanen
	969	Widening socioeconomic inequalities in US life expectancy, 1980–2000 GK Singh and M Siahpush
	979	Commentary: The fading of the dream: widening inequalities in life expectancy in America D Dorling

	981	No association of neighbourhood volunteerism with mortality in New Zealand: a national multilevel cohort study T Blakely, J Atkinson, V Ivory, S Collings, J Wilton and P Howden-Chapman
	989	Commentary: Social capital and health: making the connections one step at a time I Kawachi
	994	Socioeconomic, environmental, and behavioural risk factors for leprosy in North-east Brazil: results of a case-control study LRS Kerr-Pontes, ML Barreto, CMN Evangelista, LC Rodrigues, J Heukelbach and H Feldmeier
Respiratory Disease	1001	Plasma fibrinogen and lung function: the CARDIA Study B Thyagarajan, D R Jacobs, GG Apostol, LJ Smith, CE Lewis and OD Williams
	1008	Commentary: Fuelling the fire—systemic inflammation and development of lung disease in the general community DD Sin and SFP Man
Cancer	1011	A comparison of two dietary instruments for evaluating the fat-breast cancer relationship LS Freedman, N Potischman, V Kipnis, D Midthune, A Schatzkin, FE Thompson, RP Troiano, R Prentice, R Patterson, R Carroll and AF Subar
	1022	Commentary: Fat and breast cancer: time to re-evaluate both methods and results? SA Bingham and N Day
Cardiovascular Disease	1025	The impact of cardiovascular risk factors on the age-related excess risk of coronary heart disease Asia Pacific Cohort Studies Collaboration
	1034	Work and leisure time physical activity assessed using a simple, pragmatic, validated questionnaire and incident cardiovascular disease and all-cause mortality in men and women: The European Prospective Investigation into Cancer in Norfolk prospective population study K-T Khaw, R Jakes, S Bingham, A Welch, R Luben, N Day and N Wareham
Infectious Diseases	1044	Relationship between neighbourhood-level killed oral cholera vaccine coverage and protective efficacy: evidence for herd immunity M Emch, M Ali, J-K Park, M Yunus, DA Sack and JD Clemens
	1051	Consumption of untreated tank rainwater and gastroenteritis among young children in South Australia JS Heyworth, G Glonek, EJ Maynard, PA Baghurst and J Finlay-Jones
	1059	Epidemiology of a primary pneumonic plague in Kantoshu, Manchuria, from 1910 to 1911: statistical analysis of individual records collected by the Japanese Empire H Nishiura
Methodology	1066	Diversion: A Journal of the Plague Year
	1067	Unconditional analyses can increase efficiency in assessing gene-environment interaction of the case-combined-control design AM Goldstein, M-G Dondon and N Andrieu
	1074	Multiple-imputation for measurement-error correction SR Cole, H Chu and S Greenland
	1081	Commentary: Dealing with measurement error: multiple imputation or regression calibration? IR White
Other Original Papers	1083	Post-neonatal mortality in Norway 1969–95: a cause-specific analysis A Arntzen, SO Samuelsen, AK Daltveit and C Stoltenberg
	1090	Causes underlying the birth-cohort phenomenon of peptic ulcer: analysis of mortality data 1911–2000, England and Wales A Sonnenberg
	1097	Commentary: A unifying mathematical hypothesis for the epidemiology of <i>Helicobacter</i> -associated diseases—plurality should not be assumed without necessity B Marshall

Letters to the Editor	<hr/> 1099 The place of population change in explaining geographical inequalities in health in New Zealand J Pearce and D Dorling 1100 Obesity prevention: life course approach vs continuing environmental 'detoxification' MJ Pallan, KK Cheng and P Adab 1101 Treatment and prevention of obesity—are there critical periods for intervention? SS Hawkins and C Law 1102 Author's response to comments by Pallan, Cheng and Adab, and Hawlins and Law DA Lawlor and N Chaturvedi 1103 Revisiting the ten questions questionnaire for developing countries BO Olusanya and AA Okolo 1104 One for every 113 inhabitants: cigarette vending machines in Germany R Hanewinkel and B Isensee <hr/>
Book Reviews	1106 HIV/AIDS in South Africa A Boulle 1107 Preventing Chronic Diseases. A Vital Investment: WHO Global Report H Tunstall-Pedoe 1108 Obesity Prevention And Public Health H Moore and C Summerbell 1108 Social Injustice and Public Health C Stephens 1109 Reaching the Poor with Health, Nutrition and Population Services: What Works, What Doesn't, and Why R Fryatt 1112 Social Determinants of Health, 2nd Edition GA Kaplan 1113 Dr Golem: How to think about medicine M Bartley <hr/>
Miscellaneous	1115 Bulletin Board <hr/>
